PROFILE

Design generalist leading architectural work on hyperscale data center campuses and construction administration for Denver civic work. A decade of experience spans K-12 modernization, healthcare interiors, transit, visualization, and front-end development. LEED and IPAL credentialed, with fluency from design through documentation and digital delivery.

SKILLS

- Architectural design & production drawings
- BIM coordination & construction administration
- K-12 & healthcare modernization
- Transit & civic infrastructure
- Visualization & rendering
- AutoCAD · Revit · Rhino · Adobe Creative Suite
- React · TypeScript · Tailwind · HTML/CSS/JS
- Sewing · pattern-making · textile design

EDUCATION

Woodbury University
Bachelor of Architecture · Burbank, CA

Los Angeles Trade Technical College
Architectural Technology · Los Angeles, CA

FIDM
Design coursework · Los Angeles, CA

OUTSIDE THE STUDIO

- Competitive adult figure skater: Vail Invitational 1st; Midwestern Adult Sectionals silver
- USFS Bronze Moves certified; Silver test in progress
- Backyard homesteader: chickens, garden, canning
- Colorado 14ers, alpine ice skating & long hikes

EXPERIENCE

HDR

Denver, CO
CURRENT

Senior Design Coordinator · Architectural Designer (LEED, IPAL)

- Architectural design lead for hyperscale data center campus buildings, coordinating complex building, site, and support-facility scope.
- Construction administration lead for Swansea Recreation Center: new indoor natatorium and community addition, opened May 2026.
- BIM support from design development through construction documents on SCL Health hospitals in Wheat Ridge, Colorado and Wyoming.
- Coordinate architecture, engineering, and specialty consultants from schematic design through construction administration.

Architectural Designer

K-12 modernizations: Alicante K-8, Lakewood HS, Riley, Cleveland, and MacArthur Elementary. Civic and healthcare interiors for the California Science Center, Ronald Reagan, and Kaiser Permanente. Transit work included Metro Gold Line Extension parking structures and Expo Park Dispatch.

Architectural Visualization

Visualization and rendering for the Metro Crenshaw / LAX line and adjacent transit-oriented work.

LA Design Fellowship

Research and design exploration addressing civic architectural questions in Los Angeles.

Front-End Developer

Built responsive, brand-driven marketing and campaign front-ends in HTML, CSS, and JavaScript; translated design comps into production markup and interactive components.

Front-End Developer

Developed responsive interfaces, real-time displays, and interactive voting components for live television and audience-engagement campaigns.
